

MEMS Sensors as enablers for IoTS

Shanghai, 17th of March 2014 百里博 / Leopold Beer Regional President Asia Pacific

Bosch Sensortec

Agenda

- Brief company introduction
- State of the art sensor portfolio today and future projection
- Sensor Requirements for IoTS applications

Bosch Sensortec – The MEMS technology leader

→ For innovations that make life safer, more comfortable, and more environmentally friendly – Invented for life.

- → Some 42,800¹ researchers and developers work at Bosch: at 89 locations² worldwide, in a single network.
- → Each working day, Bosch files 19 patents on average.
- → This makes Bosch one of the world's leading companies
 for patent applications, and puts it in first place in Germany.
 Invented for life.

¹ as of 01/2013 ² R&D locations with >50 associates, as of 01/2013

Four Business Sectors

Automotive Technology

Industrial Technology

Energy and Building Technology

Consumer Goods

Bosch Sensortec

2013 Key Figures 1

Bosch Group

- 46,4 billion euros in sales
- 281,000 associates

Automotive Technology

World's largest supplier of cutting-edge automotive technology

66 % share of sales

Industrial **Technology**

- Leading in drive and control technology,
- packaging, and process technology

Energy and Building Technology

- Leading manufacturer of thermo- and building security technology
- World's largest supplier of heat pumps

34 % share of sales

Consumer Goods

- World's largest power tool manufacturer
- Leading the field in household appliances

¹ Preliminary figures as of 01/2014

Bosch – the MEMS supplier

Out of one hand MEMS sensors, actuators and solutions

Bosch Sensortec

Bosch Connected Devices & Solutions

Automotive Electronics

CF

- → Accelerometers
- **Geomagnetic sensors**
- **Gyroscopes**
- Pressure sensors
- **Humidity sensors**
- → Combo sensors
- → ASSNs

CE

Akustica

- MEMS microphones
- → Smart sensor/ actuator nodes

CE & Industrial

- → Embedded SW & algorithms
- → Customized IoTS sensor & actuator solutions

Automotive

- → Accelerometers
- Angular rate
- Pressure sensors
- → Mass flow sensors

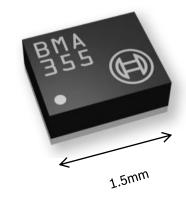

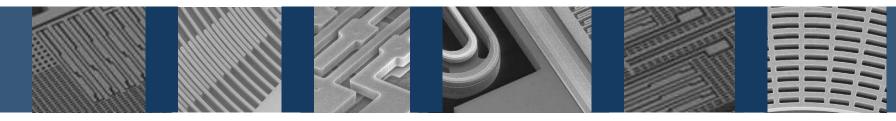

MEMS is microscopic fascination

"MEMS" = "Micro-Electro-Mechanical System"

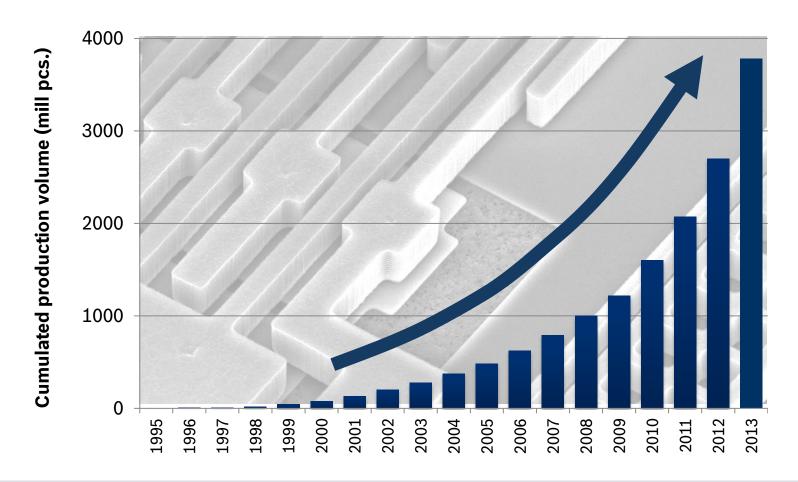

- MEMS are miniature systems which usually combine tiny mechanical structures with electronic circuits. Typical individual structures have a size of a few μm
- Bosch Engineers invented the DRIE process that is the basis for all MEMS manufacturing today

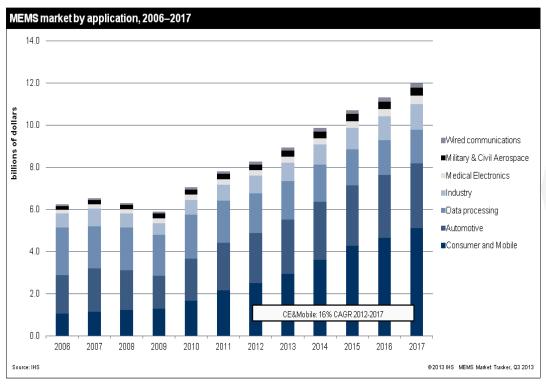

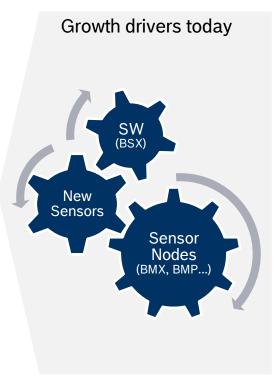

Bosch MEMS sensor shipments

Market evolution based on actual technologies

Smartphone's are today's CE MEMS growth and technology drivers

Industry Evolution Stages(Ex. Bosch Sensortec)

2016

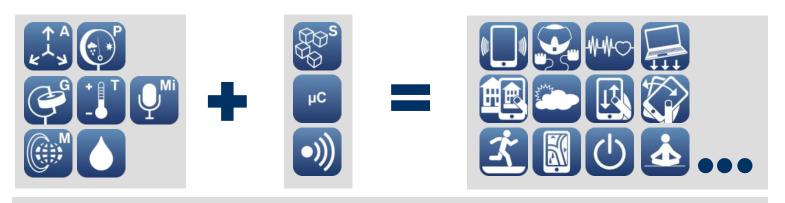

New applications...with new technologies

- Multitude of Technologies (Inertial, GeoMagnetic, Environmental, Acoustic...)
- → Implement **Application Specific** (Smartphone, Wearable, Tablets...)
- Solutions (Integrating sensors, μC and application specific software)

Broad Technology Foundation

Broad Application Know-How

State of the art technology portfolio

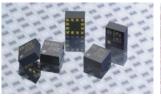

Inertial

Geomagnetic

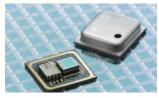

Environmental

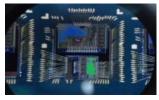

Sensor Clusters

Microphones

- Accelerometer
- Gyroscope
- IMU
- 9 Axes

- eCompass
- GeoMag
- Magnetic Gyro
- Barometric Pressure
- Integrated Environmental Unit
- Sensor Hubs
- ASSN **Application Specific** sensor nodes
- Analog and digital MEMS microphones (Akustica)
- High quality voice input for mobile devices

Sensor data-fusion software ties everything together

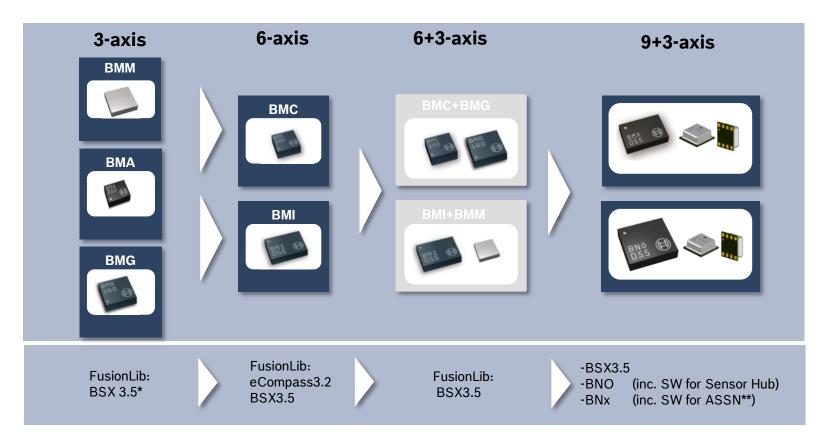

Bosch Sensortec solutions for all applications

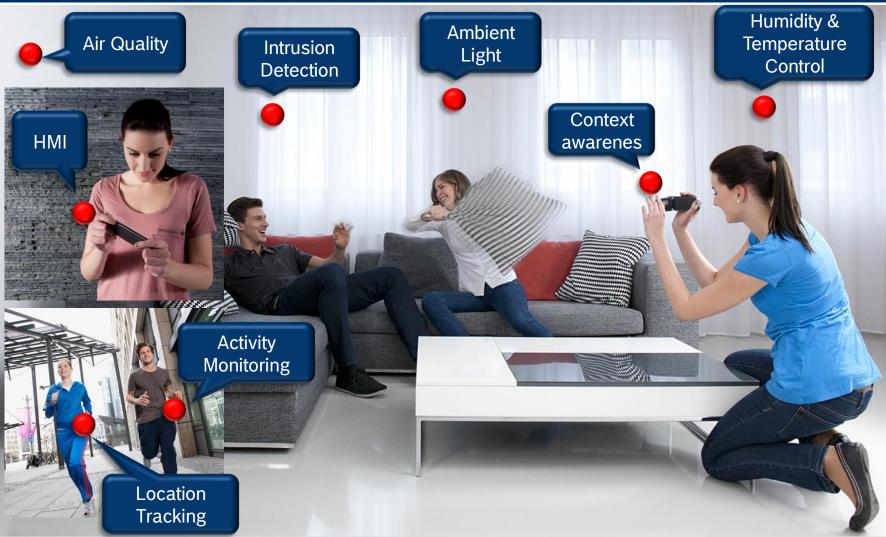

Different applications require different solutions

Bosch Sensortec

New markets segmenting out of Smartphone

Higher Power Budget

New Applications are Enabled

Higher Integrated Functionality

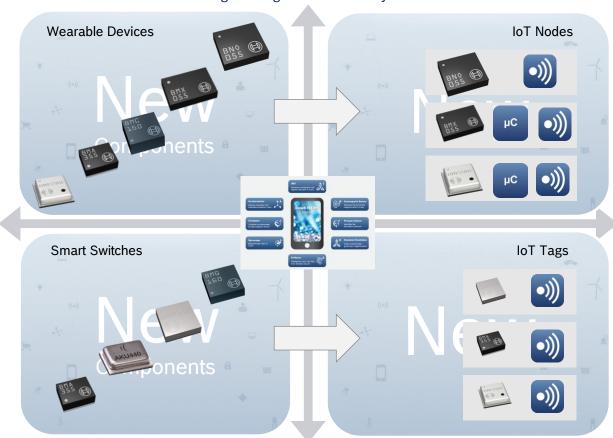

Higher Power Budget

Lower Integrated Functionality

Evolving New Solutions...

Higher Power Budget

Lower Integrated Functionality

Lower

Power

Budget

Integration Trend: 3 sensor clusters available

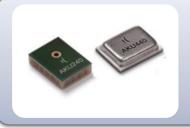

Inertial & Magnetic Sensor Cluster

- Integrated 9 Axes (accel., mag., gyro)
- Integrated Microcontroller
- Integrated Sensor data fusion software

Environmental Sensor Clusters

- Barometric pressure sensors
- Humidity sensors
- Temperature sensors

Acoustical Sensor Clusters

- Acoustical Microphones
- Microphone arrays control

New Sensors: BME280 (PTH sensing)

Integrated pressure, temperature and humidity sensing (PTH)

Small (2.5 x 2.5 mm²) but excellent performance

- → Accuracy tolerance of ±3 %RH (typ @25 °C for humidity)
- → Response time 1 S for humidity
- Absolute accuracy: typ ±1 hPa after soldering (950...1050 hPa, 0...+40 °C)

New Solutions: BNO055 - ASSN* platform

Sensor HUB (including BSX)

- Smartphone
- Tablets
- Laptops

* Application specific sensor node

Pioneering a new class of devices

hillcrestlabs.

BNO070, based on 9-axis BNO055, incorporates Hillcrest's SH-1 software optimized for head-mounted displays (HMDs)

BNO070	Technical data
Size	5.2 x 3.8 x 1.1 mm ³
Update Rate	≤250Hz
Static	Accuracy: 1.5° Heading: 1.0° Non-Heading: 1.0°
Dynamic	Accuracy: 1.5° Heading: 1.0° Non-Heading: 1.0°

Absolute orientation solution for head mounted displays (HMD)

Bosch also Acting on a Broader Scale

ABB, Bosch, Cisco, and LG aim to set up a consortium to provide a **software platform for smart homes.** The companies have now signed a memorandum of understanding to this effect. The plan is subject to approval by the antitrust authorities.

Main Take-Away

Bosch Sensortec is the **driving** company **to provide** the full range of **components, integration levels & solution approaches** for consumer electronics MEMS an IoTS.

Key Success Factors

Technology Mastering -> to manage a broad technology portfolio

Application **Know-How** -> to develop the right solutions

Solution Focus -> HW & SW Co-design capability

Q & A Session

Bosch Sensortec

Bosch sensors can be found in more then every

second

smartphone worldwide.

Detect height differences of

< 1m and tilt angles of < 1°
